TEXAS SENATE NEWS RELEASE - FEBRUARY 10, 2015

“We have identified \$12 million dollars to keep the guard funded until the end of May. This will give us time to work on getting a supplemental bill to further and permanently fund our law enforcement along the border.

“While securing the border is a responsibility of Washington, DC, it is still a Texas problem

“That’s why the Senate budget that was put forth earlier this session will continue to fund the guard for the next two years and provide funding for DPS at the highest levels in history to protect our border.”

“Whomever wants to be a leader among you must be your servant.”

Matthew 20:26 (NLT)

- Lt. Governor Dan Patrick
